**III. RATIONALE**

The University of Eastern Pangasinan, through its Office of University Extension Services, recognizes the critical role of education in fostering environmental stewardship. In alignment with National Environmental Awareness Month, this seminar aims to empower faculty and students with the knowledge and skills necessary to address pressing environmental challenges, particularly in solid waste management and sustainability. The objectives of the seminar are to enhance participants' knowledge of environmental issues and sustainable practices, raise awareness about the importance of effective waste management and its impact on the environment, and inspire faculty and students to adopt and advocate for sustainable practices within the university and the broader community. By integrating environmental education into the university curriculum, we prepare future leaders to make informed decisions that benefit the environment. The seminar fosters a sense of responsibility and community among participants, encouraging them to become proactive Green Guardians. Effective waste management and sustainability practices are essential for mitigating environmental degradation and ensuring a healthier planet for future generations. This seminar is a vital step towards building a culture of environmental consciousness and responsibility. By empowering our faculty and students with the knowledge and tools to manage waste effectively and promote sustainability, we contribute to the global effort of creating a sustainable future.

**IV. ALIGNMENT DETAILS**

Vision and Mission	<p><b>Mission:</b> To empower the faculty and students of the University of Eastern Pangasinan with the knowledge and skills necessary for effective solid waste management and environmental sustainability, fostering a culture of environmental stewardship and proactive community engagement.</p> <p><b>Vision:</b> To create a sustainable future where the University of Eastern Pangasinan serves as a model of environmental awareness and effective waste management, inspiring individuals and communities to adopt sustainable practices and contribute to the global effort of preserving our planet for future generations.</p>
Core Values	<p><b>Marunong (Knowledgeable):</b> We strive to equip our faculty and students with comprehensive knowledge about environmental issues and sustainable practices. By fostering a deep understanding of solid waste management, we empower our community to make informed and responsible decisions that benefit the environment.</p> <p><b>Magaling (Excellent):</b> We are committed to excellence in all our endeavors. This seminar aims to set a high standard for environmental education and action, encouraging participants to pursue and achieve the best practices in waste management and sustainability.</p> <p><b>Makadiyos (God-fearing):</b> We recognize the importance of spiritual values in guiding our actions. Our commitment to environmental stewardship is rooted in a respect for creation and a sense of responsibility to protect and preserve the natural world for future generations.</p> <p><b>Malinis (Clean):</b> Cleanliness is at the heart of our mission. We promote effective waste management practices that ensure a clean and healthy environment. By instilling the value of cleanliness, we encourage our community to maintain and advocate for sustainable and hygienic practices in their daily lives.</p>
Sustainable Development Goals	<p>The seminar on solid waste management and environmental sustainability at the University of Eastern Pangasinan aligns with several Sustainable Development Goals (SDGs). It supports <b>SDG 4: Quality Education</b> by enhancing knowledge and raising awareness about environmental issues and sustainable practices, contributing to inclusive and equitable quality education and promoting lifelong learning opportunities for all. The focus on effective waste management also supports <b>SDG 11: Sustainable Cities and Communities</b> by promoting practices that reduce waste and improve urban sustainability.</p>

	Additionally, the seminar encourages responsible consumption and production patterns, aligning with <b>SDG 12: Responsible Consumption and Production</b> , by educating participants on sustainable waste management practices and the importance of reducing, reusing, and recycling. By promoting environmental awareness and sustainability, the seminar contributes to <b>SDG 13: Climate Action</b> through education and advocacy for sustainable practices. Lastly, effective waste management and environmental sustainability practices help protect, restore, and promote the sustainable use of terrestrial ecosystems, contributing to <b>SDG 15: Life on Land</b> by conserving biodiversity and natural habitats.
Internationalization	The seminar on solid waste management and environmental sustainability at the University of Eastern Pangasinan will significantly impact internationalization by promoting global awareness and education, fostering cultural exchange, and encouraging the adoption of international best practices. It will create networking opportunities with global experts and institutions, and support the Sustainable Development Goals (SDGs), thereby enhancing the university's international reach and influence while fostering a sense of global responsibility among participants.

**VII. SUSTAINABILITY PLAN/ WAYS FORWARD**

To ensure the lasting impact of the seminar on solid waste management and environmental sustainability at the University of Eastern Pangasinan, a comprehensive sustainability plan will be implemented. This plan includes engaging stakeholders in the planning process, securing resources, and developing a robust curriculum. During the seminar, interactive sessions and expert speakers will enhance learning, while eco-friendly practices will be adopted. Post-seminar, follow-up activities, monitoring, and community projects will reinforce the knowledge gained. Long-term strategies involve forming sustainability committees, strengthening partnerships, and launching awareness campaigns. Documentation and knowledge sharing will ensure that the seminar's outcomes are widely disseminated, making it an annual event to promote ongoing education and engagement in environmental sustainability.
